FOREWORD

Crime in Kansas contains statistical documentation of criminal activity that has taken place in our State during 1986. Its various tables and graphs provide a measurement of crime that is a valuable aid to the law enforcement community.

This publication of crime data is presented through the efforts of over 300 state and local law enforcement agencies who submitted pertinent data to the Kansas Bureau of Investigation. Their willingness and assistance in providing this data are greatly appreciated.

Data presented in this publication can be an important and useful tool for those involved in law enforcement as they attempt to better understand the dimensions of crime in Kansas.

IN MEMORIAM

Crime in Kansas 1986 is dedicated to Officer Maureen K. "Kelly" Murphy, Bonner Springs Police Department, who was killed in the line of duty in January, 1986 and to Deputy Donald Pittenger, Pottawatomie County Sheriff's Office, who suffered a stroke in April, 1986.

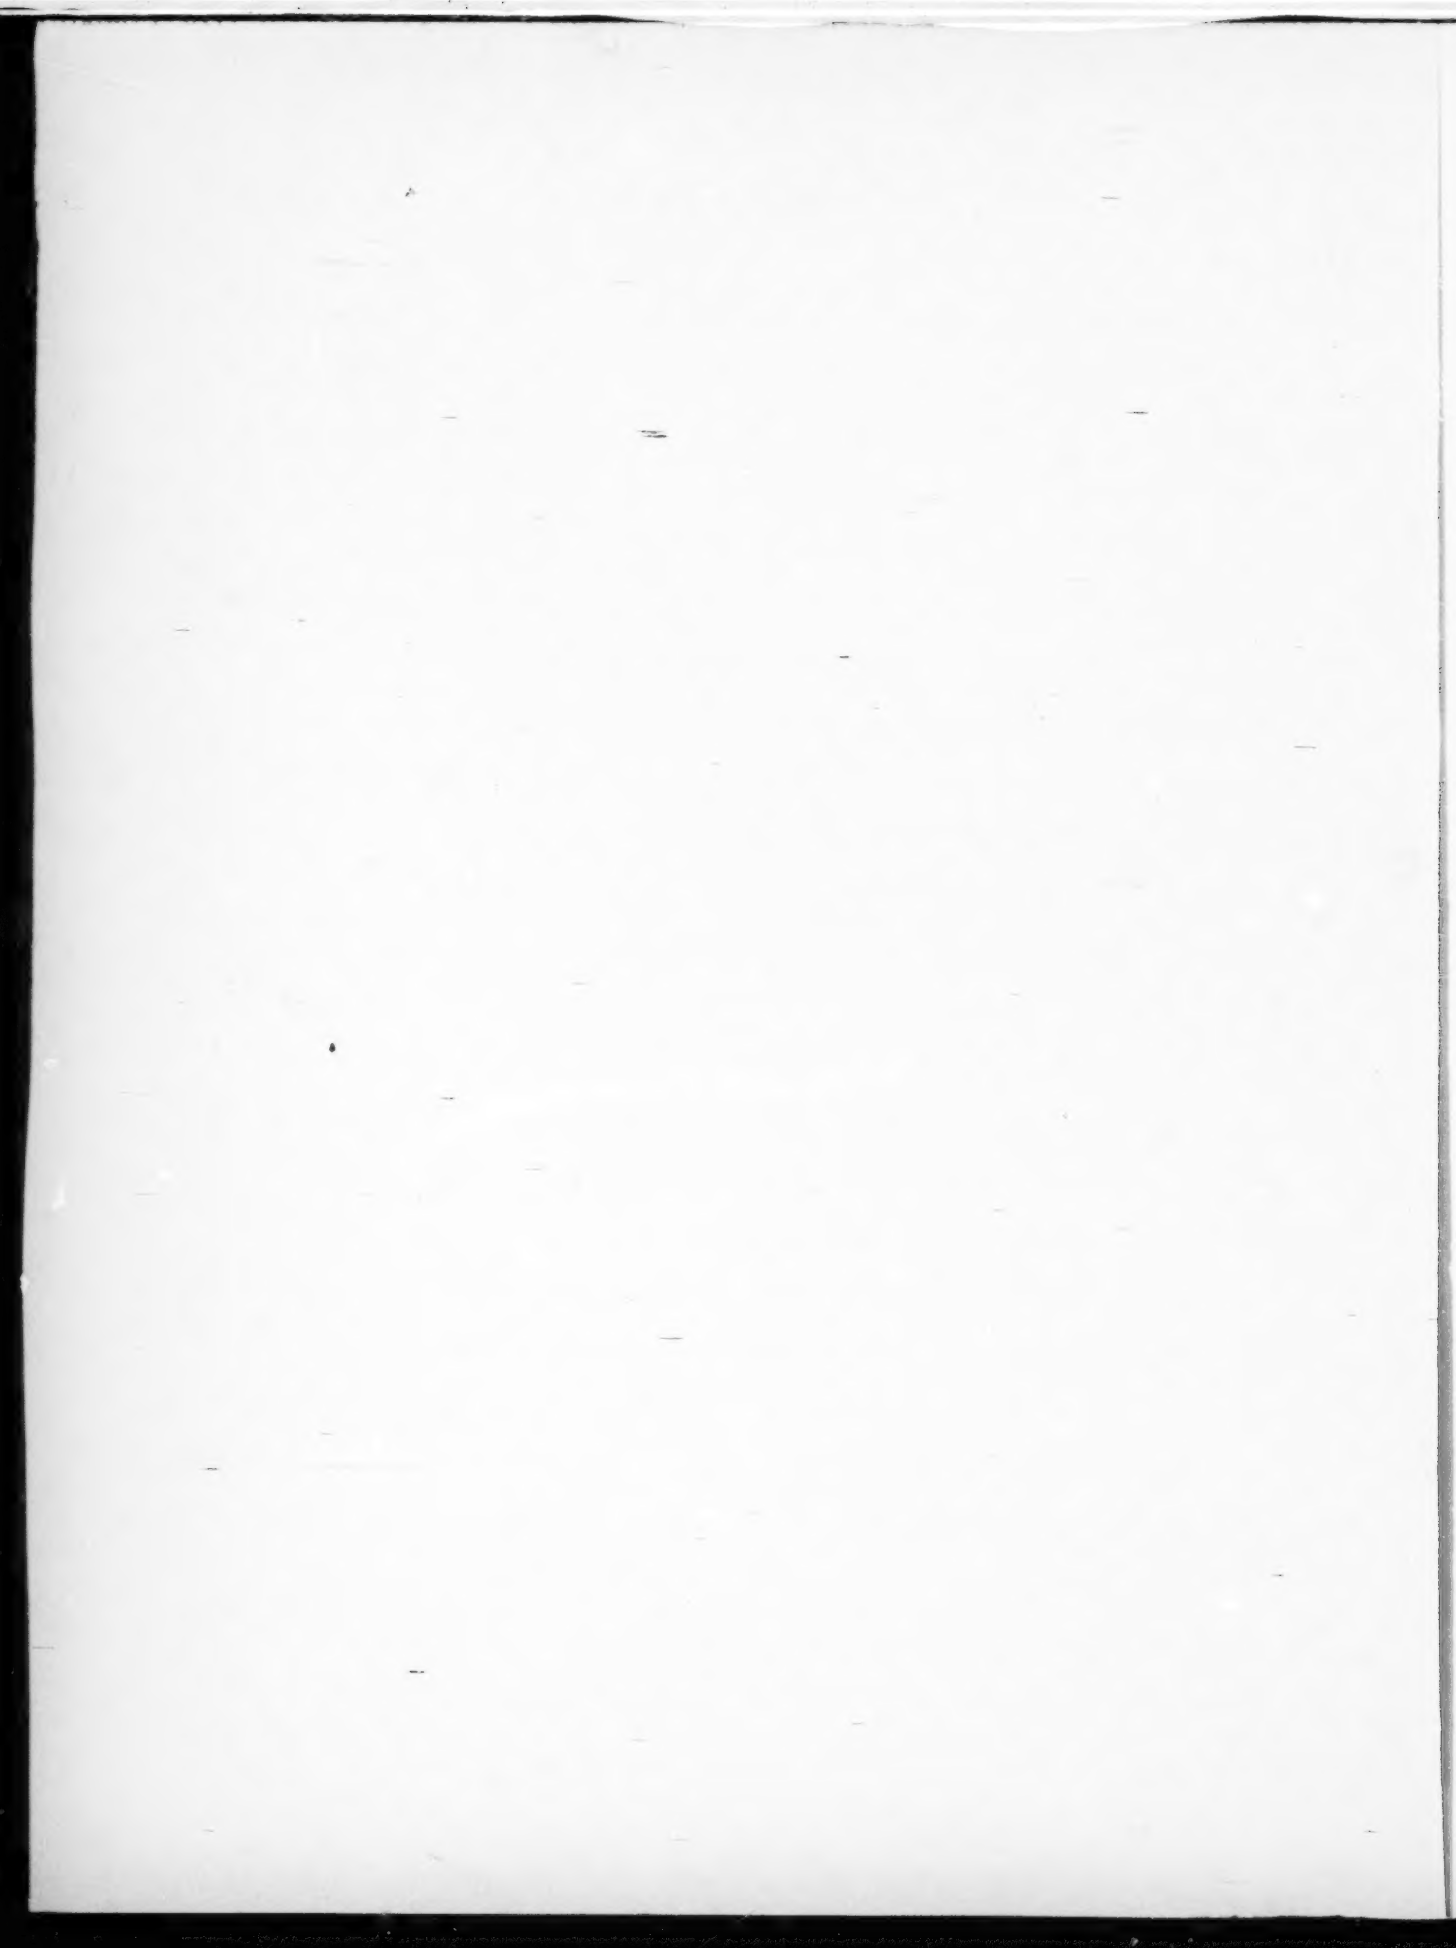

Officer Murphy, 28, worked as a plain clothes investigator for Platt County, Missouri, Sheriff's Office, then joined Bonner Springs Police Department as a uniformed officer on January 2, 1980.

Officer Murphy was alone in her patrol car parked on a quiet neighborhood street when a sniper fired a high powered rifle from over two blocks away and the bullet smashed through the window of the car killing her instantly. The Standard Offense Report she was filling out at the time of her death was found in the car when other officers arrived at the scene.

Officer Murphy's ultimate sacrifice will be tragically remembered as a waste of a vibrant human life and the loss of a dedicated law enforcement professional whose youthful presence had just begun to have an effect on the community she served. Our most sincere condolences to Officer Murphy's family and friends.

Deputy Pittenger began his law enforcement service with the Wamego Police Department and joined the Pottawatomie County Sheriff's Office on December 1, 1973.

Deputy Pittenger suffered a stroke while taking a report at the scene of a domestic disturbance. He died two days later as a result of the stroke. His service and dedication to law enforcement will be missed. Sincere sympathy to Deputy Pittenger's family and friends.

ACKNOWLEDGEMENTS

Crime in Kansas, 1986 closes out a formative period in state crime reporting that began in 1978 with the development of the state Uniform Crime Reporting program. Through extensive field training and an implicit commitment from the state, the manual, summary-based, UCR system became a model state-level program in the country. The primary credit for this exemplary status rests with Ms. Mary Lou McPhail and the some 225 law enforcement agencies that originally participated in the project. This publication is a true watershed issue; the last true Uniform Crime Report. With the exception of a handful of agencies the entire state was converted to an Incident Based Reporting System during 1986. A massive field training effort on the redesigned Standard Offense Report has yielded a database rich in potential for a greater understanding of reported crime throughout the state. Coupled with the national UCR redesign effort and the continued automation of Kansas agencies the future is extremely bright. A solid foundation for a very powerful Criminal Justice Information System has been established. Refinements and total participation, automated and remote transmission, and linkages to criminal history record information are the goals for the near future.

The Appendices contain simple examples of reports available from the new IBR system. These reports merely scratch the surface of the immense possibilities this system contains. The 1987 publication will be formulated totally from the Incident Based Reporting System. What few agencies remain to be incorporated in the state system will be brought into the fold during 1988.

This publication of Crime In Kansas, 1986 is the result of the efforts of over 300 local and state law enforcement agencies submitting required

information to the state program maintained by the Kansas Bureau of Investigation. The effort by the numerous individuals responsible for this process is greatly appreciated.

INTRODUCTION

INTRODUCTION

The Kansas Uniform Crime Reporting (UCR) program has voluntarily been a part of the National UCR program administered by the FBI for a number of years. This program collects offense data on what is referred to as Part I crimes, i.e., murder, rape, robbery, aggravated assault, burglary, larceny/theft, motor vehicle theft and arson. Arrests are collected on those crimes as well as other offenses (Part II or Class II crimes). K.S.A. 21-2501(a) and K.S.A. 21-2504 require the submission of certain crime data from all local police and sheriffs departments to the K.B.I. There were approximately 319 reporting entities for the year 1986 which is representative of nearly 100% of our state's population. The data presented in this publication will reflect offense data on the above Part I crimes and will provide some historical data as well as trend analysis.

Part I crimes are divided into two categories, violent crimes (murder, rape, robbery, aggravated assault) and property crimes (burglary, larceny/theft, and motor vehicle thefts). These specific offenses are also referred to as the Crime Index and were selected by the FBI because of their severity, their frequency of occurrence and the likelihood of being reported to local authorities. Other federal program principles are followed as well for the sake of nationwide uniformity, such as using the hierarchy rule (counting only the most serious crime in a multiple offense situation), counting only arrests made for crimes committed in an agency's jurisdiction, etc. Arson was added to the crime index in 1979 and so as not to distort data in providing trends for the other seven Part I offenses, arson data will be reported supplementally.

In an effort to update and expand the state's crime reporting program to collect more meaningful data, the K.B.I. has been in the process of

implementing an Incident-Based Reporting (IBR) system which allows for the collection of all state violation (felonies and misdemeanors). This system provides much more detailed information pertaining to each criminal incident, such as the premise (location) of the incident, characteristics of victim and offender, the weapon used, specific property stolen and/or recovered, relationship of victim to offender, and clearance percentages. These data will be instrumental in determining criminal modus operandi; it will be beneficial not only to policy makers, academicians and researchers, but especially the criminal justice community as a whole to more accurately reflect the crime occurring in our state. By the end of 1986, over 94% of the police and sheriff's departments were participating in the new IBR system; however, for the sake of continuity and accuracy we also continued to collect the monthly UCR reports throughout the first three months of 1986. Inasmuch as the new reporting system was not totally operational for a complete year, this publication will reflect both UCR data and data based on incidents reported through IBR by the local agencies. Appendix A has been added with tables based on data compiled from the Incident Base Reporting (IBR) system.

CRIME INDEX OFFENSES

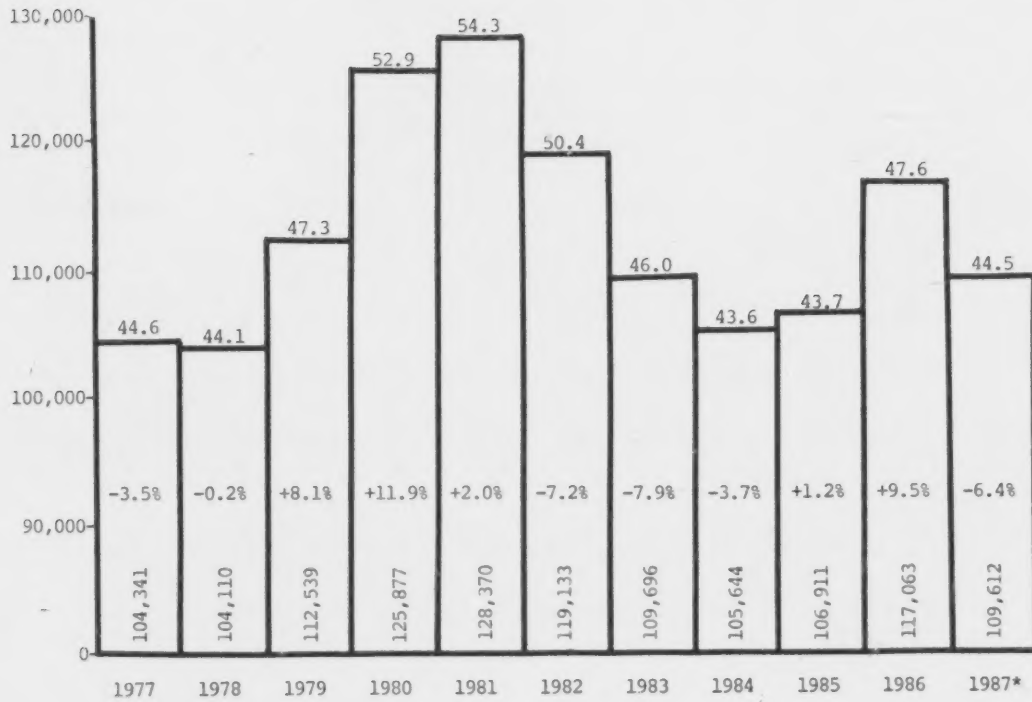

Statistical data for the eight Crime Index offenses are presented in the chapters following. Also provided are federal definitions of each offense, the number of offenses per agency and property stolen/recovered by agency. A ten-year span of crimes is also presented to show trends, as well as a projection of those crimes for 1987.

Crime Index offenses totaled 117,063 in 1986, an increase of 9.5% over 1985. According to Table 3, which reflects a ten year span of Part I crimes, the number of offenses committed in 1986 compared to 1977 increased 12.2%.

Stolen property for 1986 totaled \$64,040,049, a 17.1% increase from 1985. Recovered property showed a 15.6% increase over 1985, rising from \$19,635,545 to \$22,707,203.

Table 4 reflects clearances of crime index offenses. These clearances totaled 23,379 in 1986, 0.6% increase over 1985 clearances.

Throughout this publication this graphic is used to present reported occurrences (bottom number), the percent change from the previous year (middle number), and the rate of occurrences per 1,000 population (top number).
Crime index offenses include: murder/non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny/theft, and motor vehicle theft.
All percentages are rounded.

Throughout this publication the crime clock should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual estimated crime experience by showing the relative frequency of occurrence of the offenses. This mode of display should not be taken to imply a regularity in the commission of the offenses, rather, it represents the annual ratio of crime to fixed time intervals.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

Kansas Statutes define murder and non-negligent manslaughter as follows:

"Murder in the first degree is the killing of a human being committed maliciously, willfully, deliberately and with premeditation or committed in the perpetration or attempt to perpetrate any felony," (K.S.A. 21-3401).

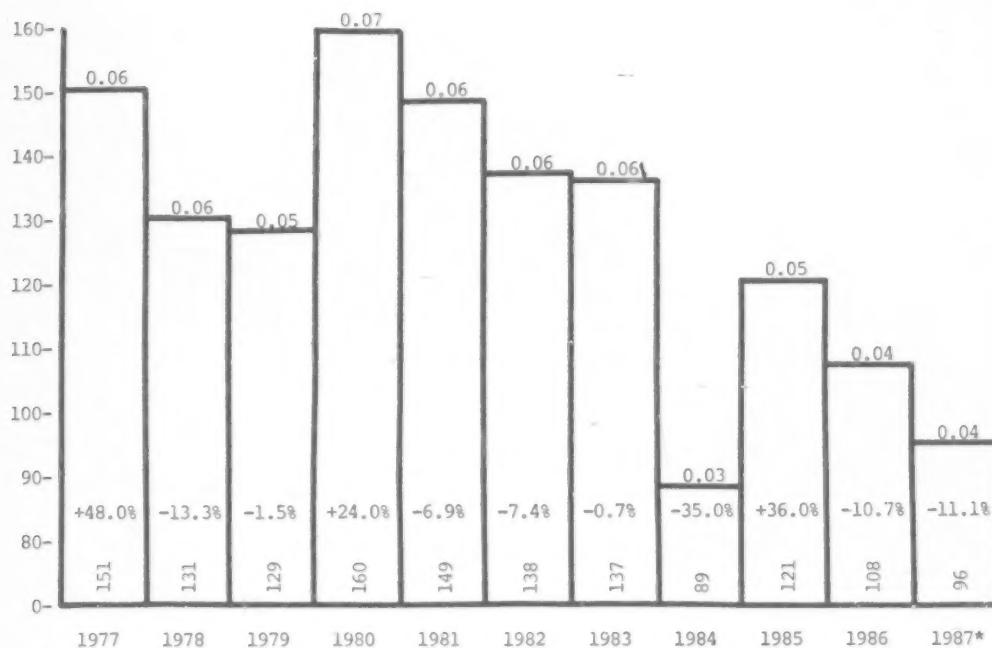

"Murder in the second degree is the malicious killing of a human being, committed without deliberation or premeditation and not in the perpetration or attempt to perpetrate a felony," (K.S.A. 21-3402).

"Voluntary manslaughter is the unlawful killing of a human being, without malice, which is done intentionally upon a sudden quarrel or in the heat of passion," (K.S.A. 21-3403).

The national program defines murder as "the willful (nonnegligent) killing of one human being by another," (Uniform Crime Reporting Handbook, 1984, page 6).

Kansas reported 108 homicides in 1986, this is a decrease of 10.7% compared to 121 in 1985. Nearly two-thirds (64.8%) of these crimes were committed with a firearm of some type and 30.1% of the 108 murders involved persons whom were acquaintances. The month of December reported the highest number of homicides followed by January and July respectively. Other data in this chapter will include victim/offender characteristics, circumstance of offense, etc.

RAPE

K.S.A. 21-3502 defines rape as:

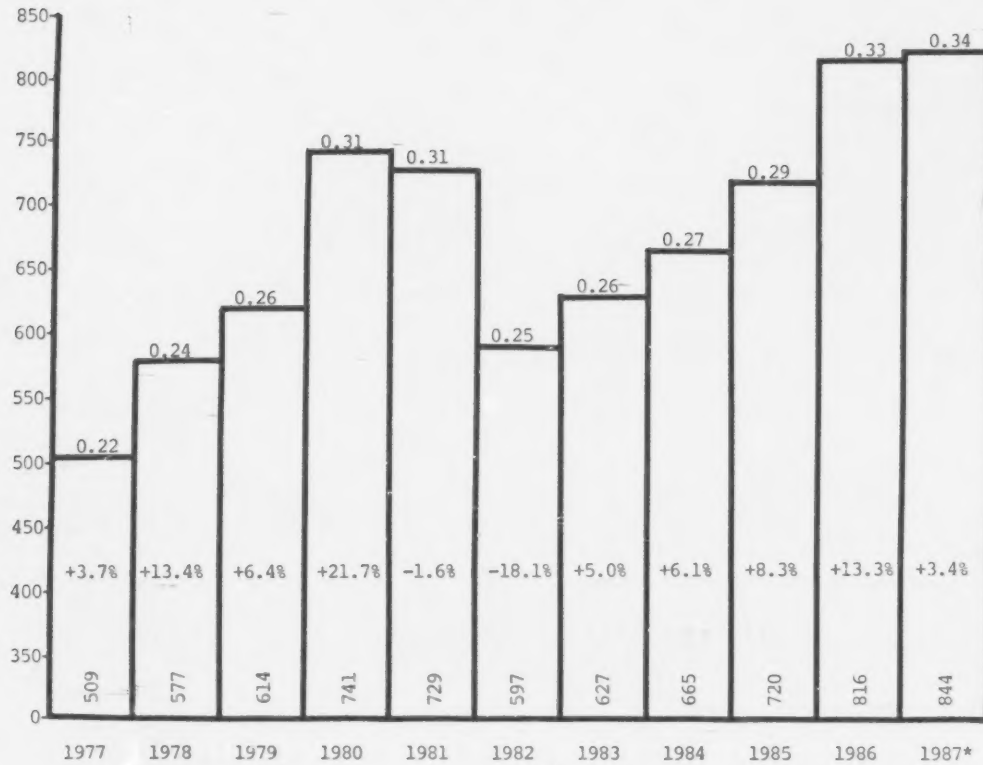

"...sexual intercourse with a person who does not consent to the sexual intercourse..."

The national UCR program does not include male sexual assaults under the rape definition; those are considered "other sex offenses" and fall within the Part II crimes category.

There were 816 reported rapes in 1986 with nearly 82% of those occurring in cities with populations of 10,000 or greater. Better than half (60.8%) of the rapes occurred between the night hours of 10:00 p.m. and 4:00 a.m. and 42.6% of the total involved no physical weapon, although the element of threat may have been involved.

According to tables 20 and 21, the most frequent rape victim is the white female between 15-19, while the most common offenders were white and black males in the 20-24 age category. The data in Table 22 reflects that 46.0% of the time the perpetrator of rape is a stranger to the victim. Almost one-half of the reported rapes occurred in a residence.

ROBBERY

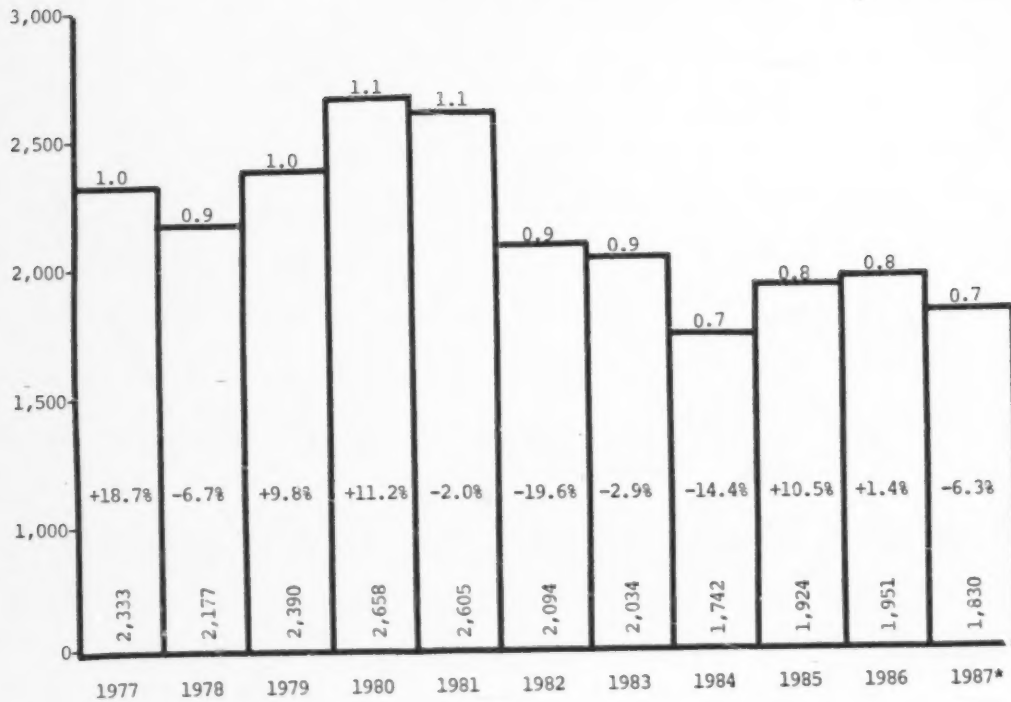

Under the national UCR program and Kansas law, robbery is:

"...the taking of property from the person or presence of another by threat of bodily harm to his person or the person of another or by force."

Robberies reported a 1.4% increase in 1986 compared to 1985; however, in viewing the ten-year crime span in Table 3, robberies are slightly lower than in 1977 and considerably lower than the following years. A firearm was used in 41.6% of the robberies in 1986 and again the majority of those robberies 92.8% were committed in cities with populations greater than 10,000.

Robberies accounted for stolen property totaling \$1,218,137 with almost one-third of that amount being taken from businesses. A breakdown of robberies by classification is found in Table 25 and Table 26.

AGGRAVATED ASSAULT

Aggravated assault is defined in Kansas under K.S.A. 21-3410 as:

- "(a) Unlawfully assaulting or striking at another with a deadly weapon; or
- (b) Committing assault by threatening or menacing another while disguised in any manner designed to conceal identity; or
- (c) Willfully and intentionally assaulting another with intent to commit any felony."

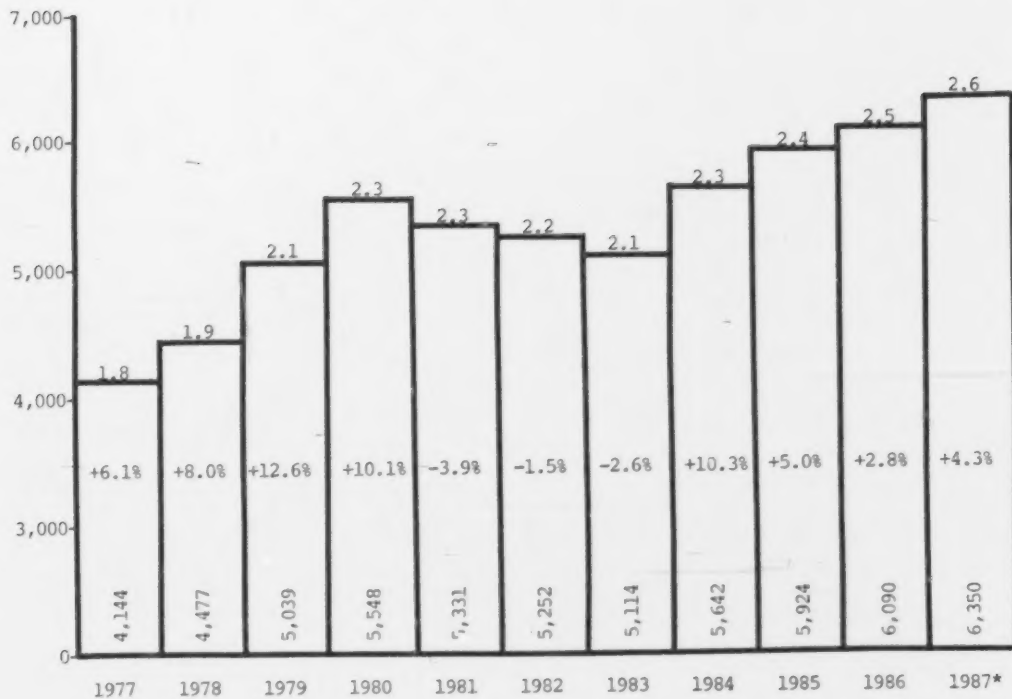

Aggravated assault is defined for the Uniform Crime Report as:

"An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm,"
(Uniform Crime Reporting Handbook, 1984, page 16).

Aggravated assault is consistently the largest category of the four violent crimes and in 1986 it represented 67.9% of reported violent crimes. Aggravated assaults reflected an increase of 2.8% (6,090) in 1986 over 1985.

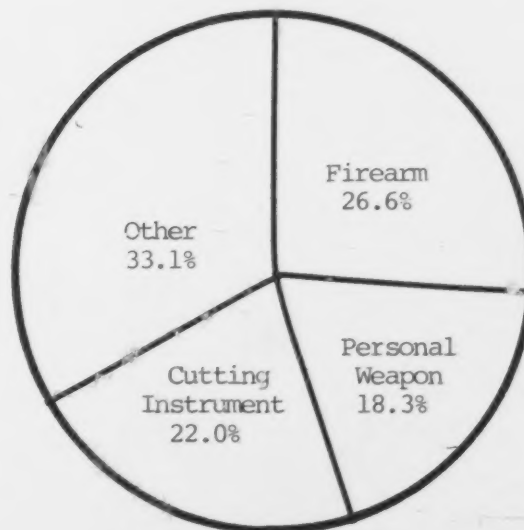

Simple assaults (no weapon and no injury involved) are a Part II crime and totaled 20,880 in 1986 which is an increase of 23.8% over the 16,871 simple assaults reported in 1985.

PROPERTY CRIMES

Property crimes, which include burglary, larceny/theft and motor vehicle theft rose more than 10% in 1986 and totaled 108,098. These three offense categories represent 92.3% of the total crime index and are responsible for 98.1% of all reported stolen property.

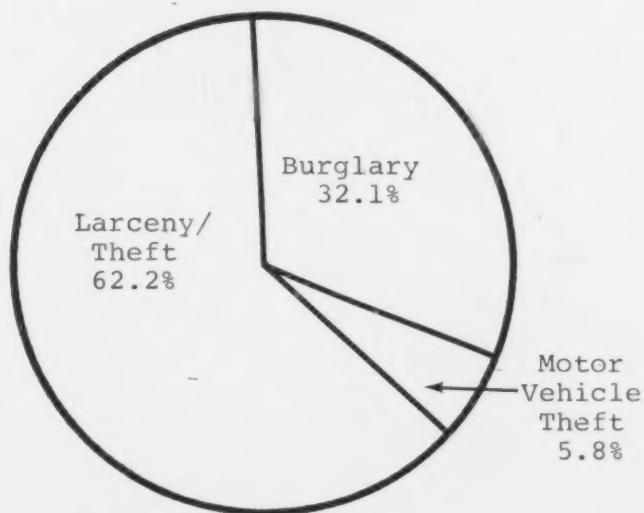

More specific data on these crimes will be addressed in the following chapters.

BURGLARY

Burglary in Kansas is defined under K.S.A. 21-3715 as:

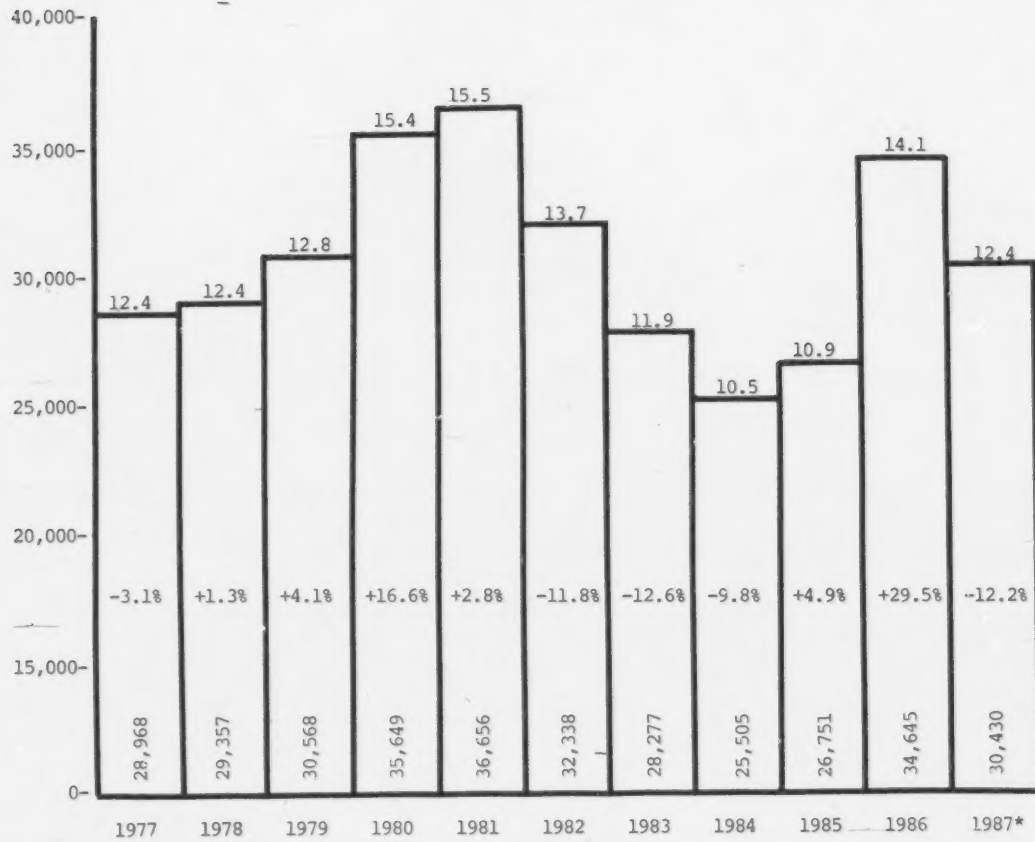

"...knowingly and without authority entering or remaining within any building, mobile home, tent or other structure, or any motor vehicle, aircraft, watercraft, railroad car or other means of conveyance of persons or property, with intent to commit a felony or theft therein."

The national UCR program does not recognize a vehicle as a structure, therefore, for UCR reporting purposes, breaking into a vehicle has traditionally been counted as a larceny/theft. However, under Kansas state statute these offenses are classified as burglaries.

Burglaries increased in 1986 to 34,645 compared to 26,751 in 1985. Of the total burglaries, 50.5% were of residences and 63.1% were committed forcibly. Burglaries were responsible for \$19,846,379 in stolen property being taken.

It should be noted that some of this increase may be attributed to the difference in FBI reporting guidelines and Kansas statute mandates for reporting this crime.

LARCENY (THEFT)

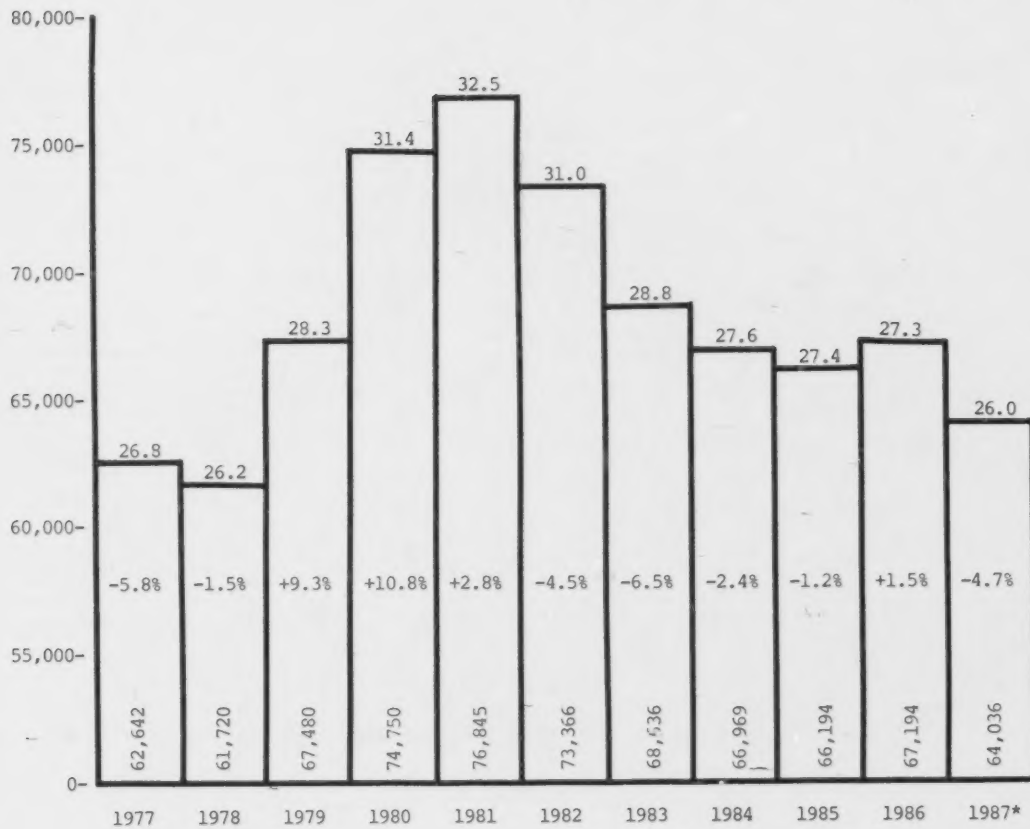

Kansas Statute K.S.A. 21-3701 defines theft as:

"...any of the following acts done with intent to deprive the owner permanently of the possession, use, or benefit of the owner's property:

- (a) Obtaining or exerting unauthorized control over property; or
- (b) Obtaining by deception, control over property; or
- (c) Obtaining by threat, control over property; or
- (d) Obtaining control over stolen property knowing the property to have been stolen by another."

For the first time in five years, larcenies reflected an increase of 1.5% from the previous year. 1986 larcenies totaled 67,194 (which also includes attempts) and were responsible for stolen property in the amount of \$17,327,012. Larcenies are broken down by eight specific categories of occurrences, Tables 29 and 30, as well as by three monetary categories in Table 1.

MOTOR VEHICLE THEFT

The national UCR program requires the reporting of motor vehicles separately from the general larceny/theft category to allow for more accurate accounting of vehicles stolen. Motor vehicle thefts increased 18.6% in 1986 totaling 6,259. A discrepancy in dollar value of stolen vehicles exists in Table 1 and Table 2 because when a vehicle is taken in the commission of a greater crime (burglary, rape, etc.) a motor vehicle theft is not tallied, but the vehicle will be counted as property taken during the primary offense.

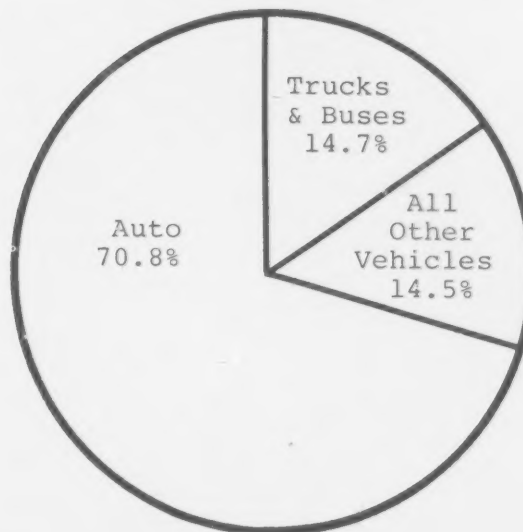

The total value of motor vehicles stolen for 1986 was \$26,877,544 which is 42% of the total dollar value of all stolen property.

ARSON

Arson is defined in K.S.A. 21-3718 as:

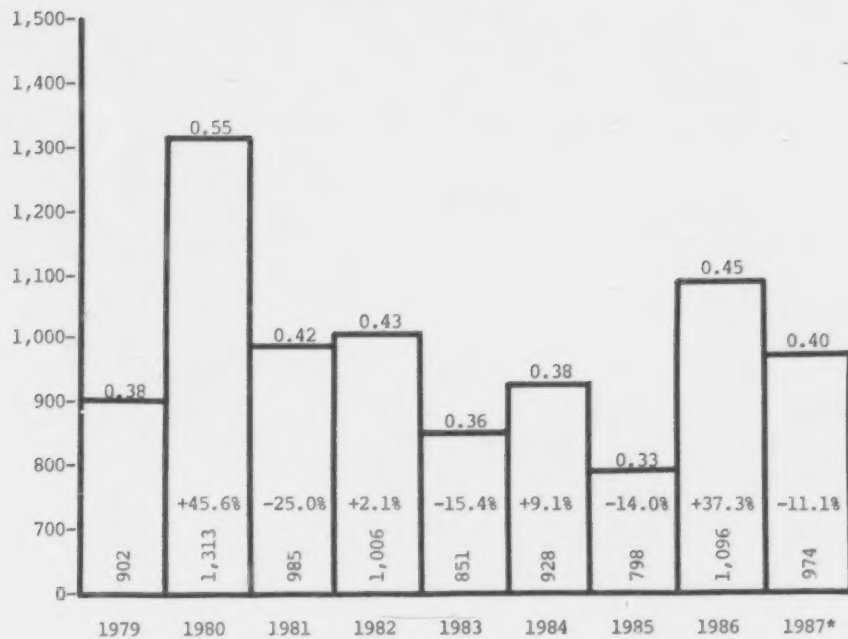

- "...knowingly, by means of fire or explosive
- (a) Damaging any building or property in which another person has any interest without the consent of such person;
or
- (b) Damaging any building or property with intent to injure or defraud an insurer or lienholder."

The number of arsons reported by law enforcement agencies increased 37.3% in 1986, while the loss incurred during those arsons reported a 21.8% decrease in 1986 from 1985.

Structural arsons, which includes residences, businesses and other structures, accounted for a little over half of the reported arsons. Arsons to vehicles and arsons to "other property" each represented approximately 23% of all arsons. The "other property" category will include crops, timber, items stored outside structures, etc.

Under the Kansas Fire Incident Reporting System (KFIRS) arsons may be reported to the State Fire Marshal's Office. Tables 34-39 will reflect these data and is footnoted as such.

SECTION II
ARRESTS

ARRESTS

Tables 40-46 reflect arrest data on persons arrested, cited, or summoned for both Part I and Part II criminal offenses. There were more reported Part I arrests in 1986 than in any other year of UCR data collection with 1986 noting a 5.0% increase over 1985.

Juvenile arrests totaled 19,752, one-fifth of the total arrests. The number of juveniles handled by a department (not always involving an arrest) increased by 7.1% over 1985, which is indicative that law enforcement is generally coming into more frequent contact with juveniles than in the past.

SECTION III

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

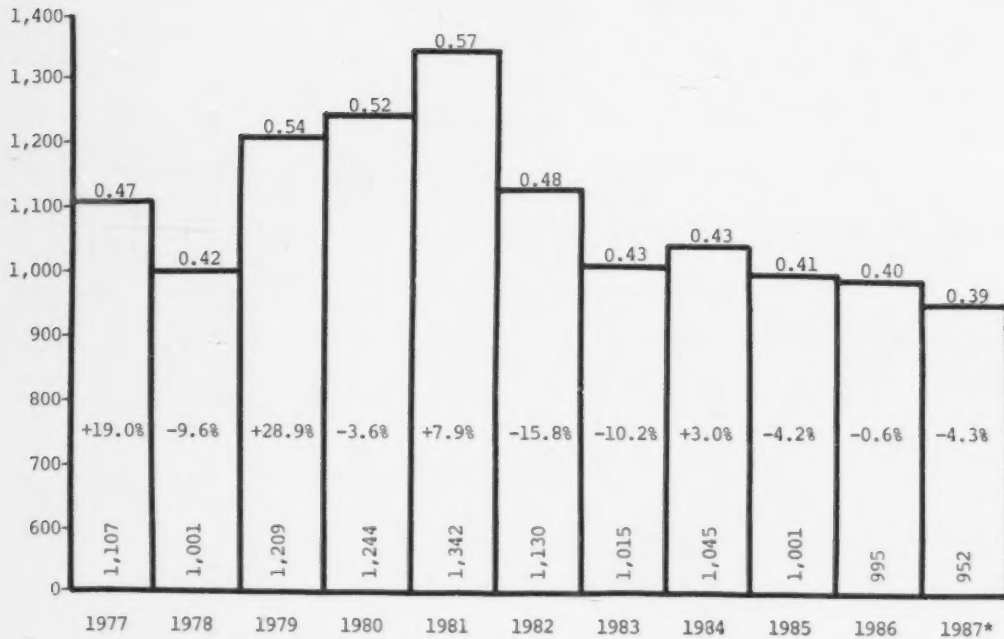

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Kansas had the misfortune of losing two police officers in the line of duty in 1986.

A police woman with the Bonner Springs Police Department was killed by sniper fire while seated in her patrol car writing reports. A deputy with the Pottawatomie County Sheriff's Office died after suffering a stroke while taking a report at a scene of a domestic disturbance.

There were 995 police officers assaulted in 1986, a 0.6% decrease from 1985. Tables in this chapter will reflect that most officers are assaulted by hands, feet, and fists of the suspect and nearly half of the assaults occurred responding to disturbance calls.
